## POLICE FOUND STOLEN GOODS

**Gang Robbery Implicated in Robbery  
of James Voiles Store in Second  
Street Last Night.**

**LOCATED UNDER CLARK'S MILL**

**Former Policeman Wm. Pea Played  
Big Part in Helping Solve Mys-  
tery—Big Four Entered.**

With the finding of a part of the goods stolen last night from the grocery store of James Voiles, corner of Pearl and Second streets, this afternoon under Clark's mill, in West Third street the police believe they have succeeded in rounding up the gang of boys that have been implicated in a number of robberies in the west part of the city in the past few weeks.

The goods were found and the arrests are expected as a result of William Pea, former city policeman. Pea was deputized on the case by Chief Rosencrance. He suspected three boys and when he let them know that he was "wise" they came through and told him the whole story. One of the boys wanted is Clell Turner, 17 years old, step-son of George Baker.

The Turner boy was out all night and Baker asked Policeman Hardin to bring the boy to the bus barn as he wanted to talk to him. Hardin found the boy but at that time did not know that the boy was wanted for the robbery. After he left the boy at the bus barn, Hardin learned that Turner was one of the gang. On returning to the barn Hardin found that the boy had made his get-away. Late this afternoon the officers were searching for the boy and hoped to land the other two members of the gang.

The names of the other two are withheld until the officers make the arrests. William Pea got the story from the boys and was given permission to work up the case. On going to the mill with Policeman Hunt, Pea found most of the tobacco and other goods taken from the store.

The night before the meat market of L. C. Sharp was robbed and only a few weeks ago the store of William Richter was entered and robbed. It is the opinion of the police that all the robberies were committed by the same person or persons.

At the Voiles store last night ten dollars in money was taken along with a large amount of tobacco, candy and canned goods. Entrance was gained through a rear window. The upper sash of the window was removed.

Mr. Voiles did not discover the robbery until this morning when he opened the store for the day. He went to light the fire and found that even the box of matches had been stolen. Ten dollars had been left in the money drawer for change.

Entrance to the Big Four depot was gained by breaking a window in the ticket office. The office showed that it had been searched and in the freight department several cartons of soap had been opened but none taken. The goods in the freight office were scattered all over the floor and it is the belief of the agent and the police that the robbers were hunting for tobacco.

This morning it was impossible to open the safe in the ticket office and it is believed that the robbers tampered with the combination trying to get it open. E. C. McMahan, Big Four agent, is not positive of this, however, as he may have done something to the safe in locking it last night. It was impossible to open it.

## MANY VISITORS PRESENT

**Large Crowd Attended County Meet-  
ing of Red Men.**

The county meeting of Red Men held here last night was attended by a crowd of two hundred. Visitors were present from the lodges of Homer, Milroy, Arlington and Mays. Each of these lodges furnished some candidates for the work. The degree team from the Homer lodge exemplified the adoption degrees and the team of the Rushville lodge put on the other two degrees. The county rally was strictly for Red Men. A smoker followed the work.

## TEACHERS TO MEET MAR. 26, 27 AND 28

**Program For 1914 Session of South-  
ern Indiana Association is  
Announced Here.**

**LAST MEET STOPPED BY FLOOD**

The 1913 session of the Southern Indiana Teachers' association was not held on account of the disastrous effects of the floods last March. Practically the same program will be given in 1914, planned for last year. This session will be held at Indianapolis, March 26, 27 and 28.

The following speakers will appear before the association: Dr. E. H. Lindley; Dr. Albert Shaw, editor of the Review of Reviews; Dr. Edwin Mead, international peace advocate; Herbert Bigelow, maker of constitutions; J. A. Burns the "Lincoln" of the mountains of Kentucky; Dr. E. J. Ward, the apostle of the social center; Dr. U. G. Weatherly; Dr. E. E. Emerson; Dr. Henry Churchill King and Dr. W. L. Bryan.

It is likely that many teachers in Rushville and Rush county will attend the session.

## ORDER OF BOARD IS STILL IN FORCE

**Dogs Must be Muzzled Until End of  
Thirty Days Which Will be  
March 12.**

**GIRLS ARE DOING NICELY**

The order of the city board of health requiring all dogs running at large without muzzles is still in force and will continue so until the expiration of thirty days. The order was issued February 12 and will not expire until March 12. The order when first issued was to be in force indefinitely but Dr. E. I. Wooden, secretary of the board decided today that thirty days would be long enough. He believes there will be no danger from rabies in this length of time.

Florence Martin, daughter of Mr. and Mrs. Eli Martin and Mamie Brock, daughter of Mr. and Mrs. Rube Brock, who are in Indianapolis taking the pasteur treatment are getting along nicely. They were bitten by a dog here and as a result the order of the health board was issued. The treatment requires twenty-eight days.

About four hundred arrests for counterfeiting are made in the United States.

## DIRECTORS ARE TO MEET TONIGHT

**President Will M. Sparks Today  
Calls Initial Session of Cham-  
ber of Commerce Board.**

**MUCH TO BE CONSIDERED**

**Desired Organization be Completed  
So Dues Can be Collected and  
Headquarters Opened.**

\*\*\*\*\*  
**CALL MEETING.**  
\*\*\*\*\*  
The board of directors of the Chamber of Commerce of Rush county is called to meet in the court house assembly room tonight at seven-thirty o'clock.  
\*\*\*\*\*  
**WILL M. SPARKS President.**  
\*\*\*\*\*

In order that the organization may be completed and that the Chamber of Commerce of Rush county may be set in motion, President Will M. Sparks today called the initial meeting of the board of directors since its organization to consider important questions.

The meeting will be held promptly at seven-thirty o'clock in the court house assembly room. It is urged that as many directors as possible be present tonight as business of great importance to the Chamber will be discussed. It is requested that the directors be there on time so that the business may be transacted with dispatch.

It is stated that the desire of the directors now is to arrange for a temporary secretary so that the first month's dues may be collected and the organization started. The necessity of opening a set of books and establishing temporary headquarters is imperative, it is pointed out.

The appointment of the standing committees to carry out the suggestions for the various departments is yet to be done as soon as the organization work is completed by the directors. The matter of incorporation is yet to be attended to, also, if it is the wish of the directors that the Chamber be incorporated.

The vigorous campaign for more members is to be waged just as soon as the directors arrange for a temporary secretary, establish headquarters and have the Chamber in running order.

Although the organization calls for a standing committee on membership, it has been suggested that a committee of a given number of men be assigned to each day in the week and the consent of the men on each committee be obtained to work at least an hour on the day to which they are assigned.

It is believed that in this way a careful and comprehensive canvass of the city can be made. A list of prospective members who have never yet been affiliated with the Chamber has already been made out and a more careful consideration, it is thought, would result in a great many more names being added.

Every one interested in the organization is highly elated with the progress made so far and see nothing but a cheery future for it.

**\$200,000 FIRE.**

(By United Press.)

St. Louis, Mo., Mar. 4.—One fireman was probably fatally injured today when fire swept the building at Third and Olive streets with the loss of \$200,000.

Queen Mary of England has ordered that no lady of the royal household may have any direct connection with business of any sort, thereby putting an end to "graft."

## FIGHT FOR GIRLS BROUGHT TO END

**Suit of August Ebbing Against Wal-  
ter H. Kuhn, Guardian of His  
Children, Compromised.**

**MICHAEL KNEY APPOINTED**

**Circuit Court is Quiet Except For  
Report Grand Jury is Invest-  
igating A. P. Walker Case.**

The case of August Ebbing against Walter H. Kuhn, guardian of Lizzie and Mary Ebbing, asking that Kuhn be removed as guardian, which was to have been heard today by Judge Megee, was compromised before the case was called for trial. By the terms of the agreement Kuhn resigns as guardian and Michael Kney takes his place.

The suit to remove the guardian came after a bitter fight for possession of the children waged by their father, August Ebbing. It will be remembered that Ebbing took one of the children to his home while she was on her way from school to the Kuhn home. Several suits were filed and one against Ebbing for surety of peace is now pending on the criminal record. Kuhn alleged that Ebbing threatened his life when he attempted to recover possession of the child.

All the parties are well known residents of near Blue Ridge. When the father took possession of the child, a suit was filed asking that he be compelled to give her back to the guardian. In this suit the court held that Ebbing was a fit person to have the care of the child and he was given permission to retain her. Michael Kney, the new guardian, was agreed upon by all the parties. He is a well known farmer, living in the western part of this county.

There was very little doing in the circuit court outside of the Ebbing-Kuhn matter. The grand jury was in session again today. This morning, it was understood, the grand jury investigated the shooting of Ray Lakin by former chief of police, T. E. McAllister. An affidavit against McAllister, charging assault and battery with intent to kill, still hangs fire before Squire Kratzer. The shooting occurred in the McCormie restaurant the day that McAllister took off his police badge.

The grand jury, it is said, investigated some of the dealings of A. P. Walker this afternoon. It is known that several local bankers were called before the grand jury and as it was intimated before the grand jury went into session that some of the charges would be investigated, it is naturally supposed that the presence of the bankers had to do with the Walker case.

## STATE DEMANDS LIFE OF WILLIAM ELLIS, MURDERER

**Attorney Denounces Him as One Who  
Blackened His Wife's Name to  
Save His Own Neck.**

(By United Press.)

Chicago, Mar. 4.—In a bitter denunciation of William Ellis, as a man who "besmirched" his own fireside and admitted that he was "damaged goods," the state today demanded the life, through its attorney, of the wealthy Cincinnati harness manufacturer.

"Shame on him for blackening his wife's name to save his own miserable neck and for telling that his blood was contaminated, disgracing his children," said Attorney Malato.

## NO HOPE FOR HER RECOVERY

**Second Victim of Thomas Hardin's  
Bullets Will Likely Die.**

(Special to the Daily Republican)

Bloomington, Ind., Mar. 4.—Little hope was held out today for the recovery of Mrs. Joseph Richardson, who late yesterday afternoon was shot down here by her son-in-law, Thomas Hardin, who, before he turned the gun on her, killed his wife, from whom he had separated, instantly by firing a bullet through her heart. Hardin was caught shortly after the shooting. Mrs. Richardson is in the hospital where an operation was undergone but with little success.

## DECLARES BROWN TO BE SUB-NORMAL

**Attorney For Man Accused of Slay-  
ing Constable Albert Hawkins  
Enters A Self Defense Plea.**

**STATION MASTER TESTIFIES**

(By United Press.)

Anderson, Ind., Mar. 4.—In a statement to the jury in the George W. Brown murder trial today, an attorney for the defense said that George had killed Constable Albert Hawkins in self defense and that the defendant was sub-normal both in intellect and hearing.

Hawkins blood-stained clothing was shown to the jury today.

The station master at Ingalls, where the murder occurred, said on the stand he heard William Brown dare Hawkins the night of the murder to take him to Anderson. William is the father of George and was also indicted for the murder.

## CASE GOES TO JURY THIS AFTERNOON

**Judge's Instructions in Terre Haute  
Election Fraud Says Marking  
of Ballots.**

**ENOUGH FOR CONVICTION**

(By United Press.)

Terre Haute, Ind., Mar. 4.—After argument by attorneys in the trial of William Huffman, charged with stuffing the ballot box, the case went to the jury this afternoon. The special judge's instructions made the statement that the marking of ballots was sufficient offense to cause conviction even though they were not passed.

Special Prosecutor Roach declared "the men who carried away the ballots are political brigands" and that when the ballots were taken from Hellick's saloon, it resembled a cake walk.

Mayor Roberts and others are awaiting trial on similar indictments.

**OFF FOR WASHINGTON.**

San Francisco, Cal., March 3.—An "army of the unemployed," broke camp here today and started its march to Washington, D. C. There are twenty-four companies of ninety men each. The organization has all of the officers of a military regiment, except a paymaster. It was led by buglers and drummers. "Gen." C. T. Kelly is in command.

## MAY BE AFFECTED BY COAL STRIKE

**City Council Decides to Buy Bigger  
Supply to Anticipate Possible  
Action in April.**

**REPORTS ARE SUBMITTED**

**Learned That Fuse Plugs Placed at  
Plant by Former Superintendent  
Are Wrong Kind.**

The city council met last night in regular session with all members present, with the exception of McGinnis. The question of coal for the water and light plant in case of a strike in April was probably the most important thing discussed. Superintendent Mahin reported to the council that the outlook for coal was not very bright and said he did not believe the city could get along on its present contract. He advised that a supply be purchased.

The city has a contract with a coal company near Cincinnati to furnish two cars of coal each week. It is planned to purchase eight or ten car loads in advance of the contract and in case the strike is called the city will have the coal and can cut the contract until the supply is again in shape to renew it. Councilman Brann was in favor of erecting an additional coal bin at the water and light plant.

The question of a team of horses for the fire department again arose. Councilman Wagoner of the fire committee reported that he had a friend at work in the northern part of the county looking for a team and believed he would locate a good one soon.

The finance committee reported that the city treasurer's report for the month of January had been found correct.

The old problem of stands and wagons being allowed to do business on the streets of the city was again brought before the council. Mayor Bebout stated that one of the wagons selling a bunch of remedies wanted to move from the south side of the court house square to the west side. The owner of the wagon stated that he was placed on the south side by the former chief of

## Sowing The Dollar Crop

National advertisers are going in for newspaper advertising this year on a greater scale than ever before.

They are going to create immediate consumer demand in the localities which sell their goods.

They have found it is the easiest way and the least expensive way.

It increases sales and lessens costs.

Certain local dealers are going to profit greatly by this market-making work of the manufacturers.

They are the ones who will be alert to their opportunities and who will have the goods ready when the public begins manifesting an interest in them.

They are going to reap their share of the dollar crop which the manufacturers are sowing through newspaper advertising.

## EGG IMPORTS REACH NEW MARK

More Brought into United States in One Month Than During Whole Fiscal Year Previously

SOME ARE SUBJECT TO DUTY

Imported "Hen Fruit" is Chiefly From China, Russia, Siberia and Southern Europe.

[Special to the Daily Republican.] Washington, Mar. 4.—The growing dependence of the United States upon foreign countries for a part of its food supply lends interest to a special statement regarding imports and exports of eggs, prepared by the Bureau of Foreign and Domestic Commerce, Department of Commerce. Imports of eggs in the month of December last amounted to 1,514,296 dozens, or more than in the entire fiscal year which ended with June, 1913.

In the fiscal year 1903 the imports amounted to 368,000 dozens; in 1910, 818,000; in 1913, 1,367,000 dozens; and in the first three months under the new tariff law—October, November and December last—during which period eggs were admitted free of duty, the imports aggregated 1,701,153 dozens, most of them arriving in the month of December. Recent consular advices from China and European ports indicate continued large increases in the shipment of eggs to this country.

Eggs other than those in the natural condition are still subject to duty, though at reduced rates, and these show increasing imports in the brief period for which the monthly figures are at hand. Frozen or preserved eggs, the duty on which is now 2 cents per pound, compared with 5 cents a dozen under the former tariff, show for the last three months of 1913 a total importation of about 1 million pounds, valued at approximately \$115,000.

Eggs yolks, now dutiable at 10 per cent. ad valorem instead of 25 per cent. as under the old law, aggregated about 200,000 pounds, and dried eggs, 8,534 pounds for the three months ended with December. In each case the imports were considerably larger than those for the corresponding period of 1912.

The countries contributing the eggs imported into the United States are few in number. Our imported eggs are chiefly the product of China, Siberia, Russia, and Southern Europe, those arriving from England and Germany having been for the most part shipped into those countries for resale to foreign markets. Of eggs imported in the natural state, England is the chief nominal source, next in order being China (including Hongkong) and Canada. Frozen eggs are chiefly from England, with smaller quantities from Hongkong. Egg yolks come almost exclusively from Germany, which imports large quantities of eggs from the producing centers of Europe and Asia and re-exports them in this form to the United States and other parts of the world.

Most of the imported eggs enter through the ports of New York, Philadelphia, Boston, San Francisco, Baltimore, Milwaukee, Seattle, Tacoma, and Portland, Ore. Hawaii also receives considerable quantities of frozen or preserved eggs from Hongkong, an important distributing point for Chinese products.

Exports of eggs during the year ended with December, 1913 amounted to 17 2/3 million dozens, compared with practically 19 million in 1912, 5 2/3 million in 1910, and 1 1/2 million in 1903, a decade ago. While exports of eggs are still much greater than imports, the closing months of the year showed a distinctly downward tendency in exports and an upward trend in imports of that commodity.

## COUNTY FAIRS TO GET ATTENTION

Department of Agriculture Believes They are Most Direct Route of Reaching the Farmer.

TO SEND DEMONSTRATORS

Transportation and Cooperation are Held to be Two Keys to Rural Situation.

(By United Press.)

Washington, D. C. March 4.—The county fair, where the red Hereford bull flaunts a blue ribbon and the prize pumpkin and the trotting race are rivals for attention, has been seized upon by the Department of Agriculture as one of the most direct methods of reaching the farmer. Dr. W. J. Spillman, in charge of the office on farm management is organizing a large force of "demonstrators" to attend the fairs next fall and give free demonstrations in everything from making a glass of crab apple jelly to building a barn.

County agents now in the field have done much to aid thousands of farmers in the way of organization and individual effort, but their chief difficulty so far has been to convince the soil tillers that the government so far has been not merely "meddling," and that scientists can do every day things better because they get at it scientifically.

This difficulty has largely been overcome by tactfulness, such as that exercised by a Texas agent a few days ago when he called on a farmer who said he was too busy to waste time with a "book farmer" as he had to go to town to get a man to fix a gasoline engine that refused to run.

The agent at once dropped the matter of farm management and made a diagnosis. He cleaned the spark plug, adjusted the carburetor, ground the valves a little and soon had the engine running like new. The delighted farmer thereupon not only found time to talk but to introduce the agent to a dozen of his neighbors. The woman on the farm is also receiving a large share of the attention of the farm management office and number of woman agents are giving their time to this work.

Transportation and cooperation are held by Dr. Spillman to be the two keys to the rural situation today and with this in view he never misses an opportunity to urge the use of the Parcel Post and organization of producers' and consumers' leagues. Furthermore he believes that great evils come from overplanting one year and underplanting the next, and that a better understanding with the consumer will remedy this.

"In the year 1901 the potato crop was very small and the price was correspondingly high," he said illustrating this point. "This led to overplanting the next year and the crop was so large that the price was lowest in 14 years. This caused underplanting in 1903 which again brought on an abnormally large crop the year following, and so it still goes on. The farmer is confronted with the difficulty that he does not know who wants his produce. If he sends it to the city customer he is afraid he will not get his pay for it. On the other hand the consumer in the city is afraid to order directly from the farmer for fear he will not get what he orders."

"The remedy for this is the organization of a producers' and consumers' league. Farmers who join such a league should be made to give a small bond that what they supply shall be as represented and the city consumer must give similar assurance that he will pay for what he gets. If 100 or more families bought the principal portion of their supplies in this manner the expense of maintaining a central office would be reasonable and the advantages would be manifold."

With 190,000 square miles cleared of the "Texas fever tick," so fatal to cattle not immunized, Dr. A. D. Melvin, chief of the bureau of animal industry, believes that the fight can

be continued until every disease carrying tick of this species in the United States succumbs. To this end he expects congress to appropriate \$350,000 in addition to \$50,000 for the purpose of encouraging the raising of blooded cattle in the cleaned-up area. It is also the aim of the Department of Agriculture to have the present laws amended so that it will be necessary to clear the cattle of ticks by dipping them in an arsonical preparation before shipping them to the northern markets. Originally the tick was found in ten of the largest states below the heavy frost line but it is gradually losing ground before the advance of science.

"As we eliminate a territory of ticks we have to be doubly careful to guard that territory," said Dr. Melvin in support of his plan for killing the ticks before shipping cattle. "In case of accidents to cattle en route, by the breaking down of trains or something of that sort the ticks might get out and re-invest a cleared area. Then there is always the danger of ticks being blown out of the cars, etc."

The \$50,000 sought by Dr. Melvin is to be used in increasing the amount of live stock and improving its brood in areas where animal husbandry and dairying have not been extensively carried on because of the presence of ticks. Special attention will be given those districts in Mississippi and Louisiana and similar sections where the presence of the boll weevil has made cotton raising a precarious industry.

## Hyomei Relieves In Five Minutes

You Breathe it.

If your head is all stuffed up from a cold or catarrh, you suffer with dull headaches and seem lacking in vitality, or are constantly sniffling and coughing, you need a remedy that will give the quickest, most effective and lasting relief possible—something that will go right to the spot, clear the head and throat and end your misery.

Surely use Hyomei—all druggists sell it. It is just such a remedy, and is entirely harmless and pleasant to use—you breathe it—no stomach dosing.

The antiseptic oils of Hyomei mix with the air you breathe—its health-giving medication immediately reaches the sore and inflamed mucous membrane—you feel better in five minutes. It is practically impossible to use Hyomei and not only be relieved but permanently benefited. F. B. Johnson & Co. druggists, will refund your money if you are not satisfied. **A Case of Politics.**

Not being professedly learned in the law, we are not prepared to discuss the legal phases of the recent compromise in the liquor law violation cases in the mayor's court, but we are certain that all sides were agreed that the end arrived at was the proper settlement. There was no objection to the compromise from either side.

The Jacksonian has been devoting columns to the discussion each evening, and by this time, we presume, has told, and without repeating, too, about all the law it lays claim to knowing, but that's neither here nor there, because it remains for the courts to settle those questions.

"If the present administration carries out its promises," says the Jacksonian modestly, "it will certainly get due credit in the columns of the Jacksonian."

The mock stuff, the leniency the Jacksonian professes to have with the opposition party, stands in good stead at this present "crisis," but we have yet to see a word of praise of any Republican office holder in the columns of the Jacksonian. The record of the Jacksonian does not warrant this.

When all of these facts are duly considered in their relative order, one would not be far amiss to venture the assertion that the Jacksonian is playing politics pure and simple, or else the editor is after that barrel of whiskey. One or the other seems to fit, and we would not be so brazen as to make the latter accusation.

But since the Jacksonian has descended to make this a purely political matter to get the party in power "in bad," we may as well attempt to give the other side of the case.

Has the Jacksonian ever considered that Donald Smith, prosecuting attorney and Democratic office holder, was a party to the compromise and was really the peacemaker?

Has the Jacksonian ever announced in its columns that Donald Smith was not only the accredited head of the state in the prosecution of the case, but that he, the day of the trial, was the person who went from one side to the other to reach a compromise?

Has the Jacksonian ever stated that the attorneys for the state and the defendants went into another room the day of the trial and discussed a compromise, without the presence of Mayor Bebout, who the Jacksonian is holding up to ridicule in the present instance, and that the prosecutor later laid the terms before the mayor?

Has the Jacksonian ever told that

it was the prosecuting attorney who announced the terms of the compromise?

Has the Jacksonian ever made it plain that the attorney employed by the Men's Bible classes of the city, the attorney of the Indiana Anti-saloon League, the prosecuting attorney, the attorney representing one of the defendants—the other had no attorney—and the mayor were all parties to the compromise?

The Jacksonian has done none of this. The Jacksonian seems to be the only person who is complaining about the decision. There seems to be no public uprising, no marvelous waive of opposing sentiment. The Jacksonian merely believes it has an opportunity to place the present administration in a false light, and its effusions are probably considered with that fact in view by most people.

The Jacksonian avows that the present administration will get due credit at its hands and that the Jacksonian might as well prepare to hash up some "credit" right now, because the administration, regardless of hindering influences, which ought to be helpful influences, has, before it is in power two months, obtained two convictions for liquor law violation. That is more than was accomplished during the whole four years of the last Democratic administration when the city was credited with being a "wide open" town and the opportunities for convictions good.

Now that all of the law on this question has been thoroughly presented by the Jacksonian, it is useless to enter into it further, except that to say, if the letter of the law was broken, it was not the first time, and it was done at the connivance of the accredited head of the state, who is supposed to prosecute all law violations, and with the consent of all parties to the controversy for the sake of preventing a costly trial.

The Indiana state law, to back up the assertion made that the letter of the law is often violated, says that all weapons taken from men under arrest SHALL be turned over to the sheriff and that he SHALL destroy them, yet while Mayor Bebout was sheriff for four years, a weapon of any sort was never placed in his hands, although it is a well-known fact that several were "confiscated."

New York, Mar. 4.—Fighting with pistols, clubs and revolvers, the police today captured desperate burglars in the act of robbing the safe in a bowery jewelry store of \$50,000 in diamonds. The burglars made a fortress of the counters and opened fire. During a lull in the battle the police grappled with the burglars and overpowered them.

police. There are several ordinances covering the wagons doing business on the street by peddlers. It is a difficult matter to find all the ordinances and it is proposed to have them all printed, and then if necessary, pass a new ordinance covering this question. The council did not seem inclined to allow the wagons in Main street.

Superintendent Mahin submitted his monthly report to the council and it was ordered placed on file. Mr. Mahin read a letter to the council from the state bureau of boiler inspection stating that the boiler at the plant here had been examined recently and found that the fuse plugs installed under former superintendent Frank Brown were placed wrong and were not the right kind of plugs. The plugs were put in, it will be remembered, when the plant was shut down night after night for almost a month. It will be necessary to do the work over but Mr. Mahin believes he can do it without closing down the plant. The boilers were inspected only last week. The superintendent was ordered by the inspector to do the work at once.

The superintendent of the water and light plant stated to the council that some people insisted on installing 5-8 inch water meters instead of 3-4 inch meters. The 5-8 inch meter is cheaper and does not give the satisfaction that other meters do. The former council specified that the people install 3-4 or 1-2 inch meters. It was suggested that the people be warned against installing 5-8 inch meter as the city water will not be turned on in case a meter of this size is used.

The Indianapolis and Cincinnati Traction company registered a kick on the amount of their water bill at the station here. They believed that the meter was wrong and registered too much water. Henry Gregg, according to the report made to the council, was sent to the traction station by Superintendent Mahin to make an investigation. In his report Mr. Gregg stated that he found the meter working perfectly and thought the only trouble was with the I. & C. which seemed to forget that the place was public and the water was often wasted by thoughtless people.

Several other people had kicked on their water bills. One of these was from the Greeks. The Greeks have the only meter in the building and collect from the other occupants at a flat rate. They claim their share is too large in proportion to what they receive. A change is proposed and separate meters may be installed in all the rooms of the building. Where the amount is thought to be correct, the city treasurer was instructed to go ahead and collect and show no favorites. He will collect the bills as turned in by the superintendent.

A bond ordinance amounting to \$120.45 covering the improvement of Jackson street from Third street to First street was passed under suspension of rules.

The city has a well on the land of James Keating and he claims to have a contract calling for \$12 a year and free water. The city has never used the well, and as it is not Keating's fault, he is demanding his money. The contract was made with the former council and called for the use of the land at the rate of twelve dollars a year. A search of the records last night failed to reveal the contract with Keating. He wants the well for his own use if the city is not going to use it. The well gives fifty-five gallons a minute and is considered a good one. The only drawback is the location. It would cost a considerable sum to tap it to the city mains. The contract with Mr. Keating will have to be found first before the council takes any action.

tence is Provided for.

Many persons have made inquiry regarding the mortgage exemption law, which provides that persons desiring to avail themselves of the act shall file a sworn statement with the county auditor between March 1 and May 1.

The act reads as follows:

"That any person being the owner of real estate liable for taxation within the State of Indiana, and being indebted in any sum, secured by mortgage upon real estate, may have the amount of such mortgage indebtedness, not exceeding seven hundred dollars, existing and unpaid upon the first day of March of any year, deducted from the assessed valuation of mortgage premises for that year, and the amount of such valuation remaining after such deduction shall have been made shall form the basis for assessment and taxation for said real estate for said year: Provided, That no deduction shall be allowed greater than one-half of such assessed valuation of said real estate.

"Any person desiring to avail himself or herself, of the provisions of this act shall, between the first day of March and the first day of May of each year, file with the auditor of the county wherein said real estate is situated a sworn statement of the amount of such mortgage indebtedness existing and unpaid on the first day of March of that year, giving the name and residence of the mortgagee, and shall also give the name and residence of the assignee or bona fide owner or holder of said mortgage, if known, and if not known, said person shall state that fact and shall also state the record and page where said mortgage is recorded, and a brief description of the estate upon which such incumbrance exists.

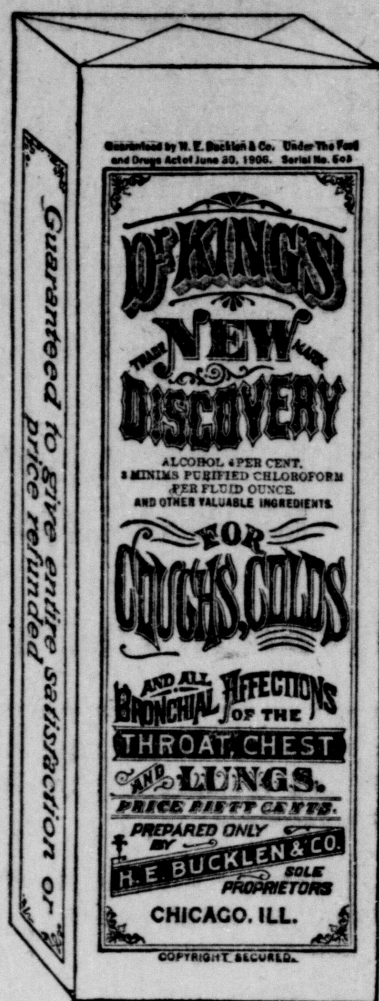

"The County Auditor with whom such statement is filed, in case the money, notes or credits evidenced by such mortgage indebtedness be liable for taxation in any county in the State of Indiana other than the one wherein such real estate is situated, shall immediately certify and transmit a copy of such sworn statement to the auditor of the county wherein the mortgagee, assignee or bona fide holder or owner of said mortgage resides, or wherein the money, notes or credits evidenced by mortgage is otherwise taxable."

The act also provides a penalty of from \$50 to \$500 to which may be added a jail sentence not exceeding six months for any person who shall wilfully make a false statement regarding such property.

## INSURANCE MEN AT SOUTH BEND

Indiana State Fire Prevention Association Stops There While on Tour of Inspection

ALL BUILDINGS ARE VISITED

Purpose is Not to Raise Rates but to Prevent Loss to Companies by Fire.

(By United Press.)

South Bend, Ind., Mar. 4.—When forty or more insurance men stopped off here today for a two-day visit of inspection, the local merchants at first thought it meant a combination against them for the purpose of raising rates. It was then explained that the reverse was the idea. This was the first day of an inspection by the Indiana State Fire Prevention Association, composed of men in the fire insurance business.

This city has been mapped out by Gus M. Wise of Indianapolis, secretary of the association. The men have been divided into two-man teams and they will inspect every merchant building in South Bend these two days. They will ferret out such nuisances as dirty basements, bad wiring, faulty heating apparatus, faulty flues and rubber hose connections for gas apparatus. These will be called to the attention of the proprietor with the suggestion that it is to his best interest to remedy them.

Each night a report will be made to Wise, who will tabulate it. He will then send notices to the merchants, following them up later with other notices. If after two notices have been sent the nuisance is not removed, the fire marshal will be notified, and he will force the improvement.

The association is interested in fire prevention for the reason that fires cost insurance companies real money. It has visited Terre Haute, Bloomington and Logansport recently. At Terre Haute and Bloomington there have been some rate reductions as a result and some are expected at Logansport.

No combination of companies on rates is allowed, due to a restraining order to that effect issued in the Marion county courts.

At the invitation of commercial organizations, this association expect to visit all the large cities in the state, giving each a thorough inspection and a good clean-up.

## MINISTER ACCEPTS PLACE

Takes Position as Head of Toledo Boxing Commission Today.

(By United Press.)

Toledo, O., March 4.—The Rev. A. E. Jones, curate of a fashionable Episcopal church, today accepted the mayor's invitation to become head of the municipal boxing commission. It is expected eight-round, no decision bouts will be allowed at once.

Bonding Company Makes Up the Loss. Greenfield, Ind., March 4.—Nothing has been heard from Howard Branham, the letter carrier, who left his home in this city two months ago on a day's leave of absence from the post-office and never returned. He was financial secretary of the local council of Red Men and a bonding company has paid to the order \$500, the amount of Branham's shortage, for which the company was liable.

## "The Greatest Kidney Remedy on Earth," Says A Grateful Woman.

I want to tell you how much good your Swamp-Root did me. About four years ago, I suffered from what the doctors called fistula and for two years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors' medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root. After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

Respectfully yours,  
MRS. JOHN BAILY,

Prove what Swamp-Root Will do for You. Send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample size bottle. It will convince anyone. You will also receive a booklet of valuable information, telling about the kidneys and bladder. When writing, be sure and mention the Rushville Daily Republican. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

## Held on Bigamy Charge.

Martinsville, Ind., March 4.—A young man who gives his name as Roy Ervin of Hall, twelve miles north of here, was arrested on an affidavit filed by Mrs. Mabel A. Sterrett, charging him with bigamy. Mrs. Sterrett alleged that she was married to Jesse A. Sterrett, Oct. 18, 1909, in Newcastle, and that Ervin is her husband. She also charges that June 21, 1913, the man married Mary Fern Hurt of this county, without a divorce having been obtained.

ANAEMIC SINCE  
CHILDHOOD

## How Miss Holmes Regained Her Health.

If you are anaemic, you need more iron in your blood, and the tell-tale symptoms are a pale face—colorless lips, ashen finger nails, poor circulation, and short breath, and more serious diseases are easily contracted when in this condition.

What Vinol did for Miss Yvonne Holmes of Fall River, Mass., it will do for every anaemic run-down person. She says: "I have been weak and anaemic since childhood, always had that tired feeling." Tonic after tonic was tried with little or no result until Vinol was recommended, and after taking three bottles, my appetite and digestion have been improved. I do not suffer any more from insomnia, nor do I have distressing headaches as formerly, and I am stronger than I have been for years."

We ask every anaemic or run-down, weak person in this vicinity to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. F. B. Johnson & Co. Druggists, Rushville, Ind.

## CHAPTER XV.

## Wee In Number Seven.

HIS rage blazed forth. So they had "got to him" after all. Who? He thought of the smooth, crafty mountain of a man who had detained him a moment ago. Who but Cargan and Max, of course? They had found his childish hiding place, and the money had come home to their eager hands. No doubt they were laughing slyly at him now.

Well, he would show them yet. He got up and walked the floor. Once he had held them up in the snow and spoiled their little game. He would do it again. How? When? He did not know. His soul cried for action of some sort, but he was up against a blind alley, and he knew it.

He unlocked the door of No. 7. To go downstairs, to meet the sweet eagerness of the girl who depended on him, to confess himself tricked—it took all the courage he had. Why had it all happened anyhow? Confound it! Had he not come up here to be alone with his thoughts? But, brighter side, it had given him her, or it would give him her before the last card was played. He shut his teeth tightly and went down the stairs.

Mr. Bland had added himself to the group about the fire. Quickly the eyes of Miss Norton met Magee's. She was trembling with excitement. Cargan, huge, red, cheery, got in Magee's path once more.

"I'll annihilate this man," thought Magee.

"I've been figuring," said the mayor, "that was one thing he didn't have to contend with. No, sir, there wasn't any bright young men hunting up old Napoleon and knocking him in the monthly magazines. They didn't go down to Sardinia and pump it out of the neighbors that he started business on borrowed money and that his father drank more than was good for him. They didn't run illustrated articles about the diamonds he wore and moving pictures of him eating soup."

"No, I guess not," replied Magee abstractedly.

"I reckon there was a lot in his record wasn't meant for the newspapers," continued Cargan reflectively. "And it didn't get there. Nap was lucky. He had it on the reformers there. They couldn't squash him with the power of the press."

Mr. Magee broke away from the mayor's relaxed history and hurried to Miss Norton.

"You promised yesterday," he reminded her, "to show me the pictures of the admiral."

"So I did," she replied, rising quickly. "To think you have spent all this time in Baldpate inn and not paid homage to its own particular cock of the walk."

She led him to a portrait hanging beside the desk.

"Behold," she said, "the admiral on a sunny day in July. Note the starchy grandeur of him, even with the thermometer up in the clouds. That's one of the things the rocking chair fleet adores in him. Can you imagine the flurry at the approach of all that superiority? Theodore Roosevelt, William Faversham and Richard Harding Davis all arriving together couldn't overshadow the admiral for a minute."

Mr. Magee gazed at the picture of a pompous little man whose fierce mustache seemed anxious to make up for the lack of hair on his head.

"A bald hero at a summer resort," he commented, "it seems incredible."

"Oh, they think he lost his hair fighting for the flag!" she laughed.

"Is it possible to see the room where the admiral plays his famous game?"

"Step softly," she answered. "In here. There stands the very table."

They went into the small card room at the right of the entrance to the office, and Mr. Magee quietly closed the door behind them. The time had come. He felt his heart sink.

"Well?" said the girl, with an eagerness she could not conceal.

Mr. Magee groped for words and found—his old friends of the mountain.

"I love you," he cried desperately. "You must believe I want to help you. It looks rather the other way now, I'll admit. I want you to have that money. I don't know who you are nor what this all means, but I want you to have it. I went upstairs determined to give it to you."

"Really." The word was at least 50 degrees below the temperature of the cardroom.

"Yes, really. I won't ask you to believe, but I'm telling the truth. I went to the place where I had fatuously hid the money—under a brick of my fireplace. It was gone."

"How terribly unfortunate."

"Yes, isn't it?" Mr. Magee rejoiced that she took so calm a view of it. "They searched the room, of course, and they found the money. They're on top now, but I'm going."

He stopped, for he had seen her face. She—taking a calm view of it? No.

indeed. Billy Magee saw that she was furiously, wildly angry. He remembered always having written it down that beautiful women were even more beautiful in anger. How, he wondered, had he fallen into that error?

"Please do not bore me," she said through her teeth, "with any further recital of what you 'are going' to do. You seem to have a fatal facility in that line. Your record of accomplishment is pathetically weak. And—oh, what a fool I've been! I believed. Even after last night, I believed."

"I know," he said helplessly, "you're terribly disappointed, and I don't blame you. But you will find out that you've done me an injustice. I'm going."

"One thing," said she, smiling a smile that could have cut glass, "you are going to do. I know that you won't fail this time, because I shall personally see you through with it. You're going to stop making a fool of me."

"Tell me," pleaded Billy Magee, "tell me who you are—what this is all about. Can't you see I'm working in the dark? You must!"

She threw open the card room door. "An English officer," she remarked loudly, stepping out into the other room, "taught the admiral the game—at least, so he said. It added so much romance to it in the eyes of the rocking chair fleet. Can't you see—India—the hot sun—the Kipling local color—a silent, tanned, handsome man eternally playing solitaire on the porch of the barracks? Has the barracks a porch?"

Roused, humiliated, baffled, Mr. Magee felt his cheeks burn.

"We shall see what we shall see," he muttered.

"Why coin the inevitable into a bromide?" she asked.

Mr. Magee joined the group by the fire. Never before in his life had he been so determined on anything as he was now that the package of money should return to his keeping. But how? How trace through this maze of humans the present holder of that precious bundle of collateral? He looked at Mr. Max, sneering his lemon colored sneer at the mayor's side; at the mayor himself, nonchalant as the admiral being photographed; at Bland, author of the Arabella fiction, sprawling at ease before the fire; at the tawdry Mrs. Norton and at Myra Thornhill, who had by her pleading the night before made him ridiculous. Who of these had the money now? Who but Cargan and Max, their faces serene, their eyes eagerly on the preparations for lunch, their plans for leaving Baldpate inn no doubt already made?

And then Mr. Magee saw coming down the stairs another figure—one he had forgot—Professor Thaddeus Bolton, he of the mysterious dialogue by the annex door. On the professor's forehead was a surprising red scratch, and his eyes, no longer hidden by the double convex lenses, stood revealed a washed out gray in the light of noon.

"A most unfortunate accident," explained the old man. "Most distressing. I have broken my glasses. I am almost blind without them."

"How'd it happen, Doc?" asked Mr. Cargan easily.

"I came into unexpected juxtaposition with an open door," returned Professor Bolton. "Stupid of me, but I'm always doing it. Really, the agility displayed by doors in getting in my path is surprising."

"You and Mr. Max can sympathize with each other," said Magee. "I thought for a moment your injuries might have been received in the same cause."

"Don't worry, Doc," Mr. Bland soothed him, "we'll all keep a weather eye out for reporters that want to connect you up with the peroxide blonds."

The professor turned his ineffectual gaze on the haberdasher, and there was a startlingly ironic smile on his face.

"I know, Mr. Bland," he said, "that my safety is your dearest wish."

It was past 3 o'clock. The early twilight crept up the mountain, and the shadows began to lengthen in the great bare office of Baldpate inn. In the red flicker of firelight Mr. Magee sat and pondered. The interval since luncheon had passed lazily. He was no nearer to guessing which of Baldpate inn's winter guests hugged close the precious package. Exasperated, angry, he waited for he knew not what, restless all the while to act, but having not the glimmer of an inspira-

tion as to what his course ought to be. He heard the rustle of skirts on the stair landing and looked up. Down the broad stairway, so well designed to serve as a show window for the sartorial triumphs of Baldpate's gay summer people, came the tall handsome girl who had the night before set all his plans awry.

Now, for the first time he looked upon her as a flesh and blood girl, noted the red in her olive cheeks, the fire in her dark eyes and realized that her interest in that package of money might be something more than another queer quirk in the tangle of events.

She smiled a friendly smile at Magee and took the chair he offered.

"Last night, Mr. Magee," she said, "I told you frankly why I had come to Baldpate inn. You were good enough to say that you would help me if you could. The time has come when you can, I think."

"Yes?" answered Magee. His heart sank. What now?

"I must confess that I spied this morning," she went on. "It was rude of me, perhaps. But I think almost anything is excusable under the circumstances, don't you? I witnessed a scene in the hall above—Mr. Magee, I know who has the \$200,000!"

"You know?" cried Magee. His heart gave a great bound. At last! And then—he stopped. "I'm afraid I must ask you not to tell me," he added sadly.

The girl looked at him in wonder. She was of a type common in Magee's world—delicate, finely reared, sensitive. True, in her pride and haughtiness she suggested the snow capped heights of the eternal hills. But at sight of those feminine heights Billy Magee had always been one to seize his alpenstock in a more determined grip and climb. Witness his attentions to the superb Helen Faulkner. He had a moment of faltering. Here was a girl who at least did not doubt him, who ascribed to him the virtues of a gentleman, who was glad to trust in him. Should he transfer his allegiance? No, he could hardly do that now.

"You ask me not to tell you," repeated the girl slowly.

"That demands an explanation," replied Billy Magee. "I want you to understand—to be certain that I would delight to help you if I could. But the fact is that before you came I gave my word to secure the package you speak of—for another woman. I cannot break my promise to her."

"I see," she answered. Her tone was cool.

"I'm very sorry," Magee went on. "But as a matter of fact I seem to be of very little service to any one. Just now I would give a great deal to have the information you were about to give me. But since I could not use it helping you, you will readily see that I must not listen. I'm sorry."

"I'm sorry, too," replied the girl. "Thank you very much—for telling me. Now I must—go forward—alone." She smiled unhappily.

"I'm afraid you must," answered Billy Magee.

On the stairs appeared the slim figure of the other girl. Her great eyes were wistful, her face was pale. She came toward them through the red firelight. Mr. Magee saw what a fool he had been to waver in his allegiance even for a moment, for he loved her, wanted her, surely. The snow capped heights are inspiring, but far more companionable is the brook that sparkles in the valley.

"It's rather dull, isn't it?" asked Miss Norton of the Thornhill girl. By the side of the taller woman she seemed slight, almost childish. "Have you seen the pictures of the admiral, Miss Thornhill? Looking at them is our one diversion."

"I do not care to see them, thank you," Myra Thornhill replied, moving toward the stairs. "He is a very dear friend of my father." She passed up and out of sight.

Miss Norton turned away from the fire, and Mr. Magee rose hastily to follow. He stood close behind her, gazing down at her golden hair, shimmering in the dark.

"I've just been thinking," he said lightly, "what an absolutely ridiculous figure I must be in your eyes, buzzing round and round like a bee in a bottle and getting nowhere at all. Listen—no one has left the inn. While they stay there's hope. Am I not to have one more chance—a chance to prove to you how much I care?"

She turned, and even in the dusk he saw that her eyes were wet.

"Oh, I don't know, I don't know," she whispered. "I'm not angry any more. I'm just at sea. I don't know what to think—what to do. Why try any longer? I think I'll go away—and give up."

"You mustn't do that," urged Magee. They came back into the firelight. "Miss Thornhill has just informed me that she knows who has the package!"

"Indeed," said the girl calmly, but her face had flushed.

"I didn't let her tell me, of course."

"Why not?" Oh, how maddening women could be!

"Why not?" Magee's tone was hurt. "Because I couldn't use her information in getting the money for you."

"You are still 'going to' get the money for me?"

The firelight fell on her lips, her hair, her eyes, and Mr. Magee knew that his selfish bachelorhood was at an end. He stooped to her.

"Give me, please," he said, "the benefit of the doubt." It was a poor speech compared to what was in his heart, but Billy Magee was rapidly learning that most of the pretty speeches went with puppets who could not feel.

To be continued

"I love you!" he cried desperately.

## MAY PROVE FATAL

## When Will Rushville People Learn Importance of It?

Backache is only a simple thing at first;

But if you find 'tis from the kidneys;

That serious kidney troubles may follow;

That dropsy or Bright's disease may be the fatal end,

You will be glad to know the following experience.

'Tis the statement of a Rushville citizen.

Samuel A. Brown, R. R. No. 10, Rushville, Ind., says: "I had a severe attack of backache and it got worse every day. Finally, the trouble got so bad that I could hardly raise my foot above the ground. When I stooped, I thought my back would break. Someone advised me to try Doan's Kidney Pills and I got a box. I was very much surprised at the prompt way in which they stopped the trouble. In a few days I was free from pain."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Brown had. Foster-Milburn Co., Props., Buffalo, N. Y.

Falling Hair and Itching Scalp

Needless—Use Parisian Sage.

Now that Parisian Sage can be had at any drug counter it is certainly needless to have thin, brittle, matted, stringy or faded hair. No matter how unsightly the hair, how badly it is falling, or how much dandruff, Parisian Sage is all that is needed. Frequent applications and well rubbed into the scalp will do wonders—it acts like magic. The hair roots are nourished and stimulated to grow new hair, itching scalp, dandruff and falling hair cease—your head feels fine. Best of all, the hair becomes soft, fluffy, abundant and radiant with life and beauty.

You will be surprised and delighted with Parisian Sage. Try at least one fifty cent bottle from F. B. Johnson and Company, they will refund the purchase price if you are not satisfied.

Notice to Contractors.

Notice is hereby given that on the 26th day of March, 1914,

at 10:30 o'clock a. m., at the office of the Trustee of Walker school township, Rush county, Indiana, the undersigned Trustee of said Township will receive bids for the construction of a two story brick building and will at said time and place also receive bids for heating, ventilating, plumbing and sewerage for said building, all according to plans and specifications therefor on file in the office of said Trustee and at the office of the architect, Elmer E. Dunlap, 909 State Life Building, Indianapolis, Ind. All bids shall be in writing. The right is reserved to reject any and all bids.

No bidder shall take or remove a copy of the plans and specifications from said Trustee's office without depositing \$25.00 with said Trustee as a guaranty that the copy will be returned within seven days, said sum to be returned on the return of said copy, less \$1.00 for each day said plans and specifications are kept longer than seven days.

Bids will be opened for heating and plumbing before those for the building and, should the Trustee desire, the successful bidder shall be required to include in his contract with the Trustee the heating and plumbing contracts which the Trustee accepts, in order that the entire work will be under one contract.

Each bidder shall deposit with his bid a certified check payable to said Trustee for an amount equal to five per cent of his bid as a guaranty that he will, within five days after the letting, enter into a written contract to the approval of said Trustee to construct said school building according to said plans and specifications and will also execute a bond in a sum equal to the amount of his bid and contract for the faithful performance of his contract. A form of contract and bond will be on file in said office at the time of receiving said bids; said contract to be the standard, uniform form of a contract furnished by the architect. If said bidder within said time executes such contract and bond, said check shall be returned to him, otherwise said check shall be cashed by said Trustee and the amount paid by him as liquidated damages for such failure, said amount to be a part of the proper funds of said school township.

## CHANCE FOR THE NEW ASSISTANTS

Good Road Advocates Declare They May Exert Police Powers and Prevent Heavy Hauling.

### WHILE HIGHWAYS ARE SOFT

New Assistants Take Office After Their Bonds Are Approved by Board of Commissioners.

Advocates of good roads in Rush county are pointing out that there is opportunity now for the county highway superintendent, J. C. King, to show the value of the new law and the worth of his office and those of his assistants by ordering them to use their police powers, which an old statute gives them, to prevent heavy hauling at this season of the year on turnpikes, macadam and free gravel roads.

The ground is already thawing and roads are soft and unfit for travel but they still may be used without great damage being done. Because of the very severe freezes during the winter the thaws will make the roads in much worse condition than usual.

The assistant superintendents have police power to arrest under an act of 1907, any driver of a wagon weighing more than 2,500 pounds with load and driver. The penalty for violation of the act is a fine of not less than \$5 nor more than \$50. For each arrest made from which a prosecution results, the person making the arrest secures \$2.

The county commissioners have approved the bonds of the assistant highway superintendents who will co-operate with the county highway superintendent. They adjourned yesterday without doing much business. They took dinner at the county poor asylum.

The assistant superintendents, who take office whenever their bonds are approved, and their district, are as follows: Rolla Zorne, No. 1, 12 3/4 miles; Benjamin Black, No. 2, 18 3/4 miles; Charles McBride, No. 3, 22 3/4 miles; Riley Ruby, No. 4, 22 miles; Frank Graff, No. 5, 25 3/4 miles; Frank Sample, No. 6, 19 1/2 miles; Bert Leisure, No. 7, 21 miles; John Heeb, No. 8, 25 1/2 miles; J. Frank Wilson, No. 9, 19 1/2 miles; Alva Hungerford, No. 10, 24 1/2 miles; John Wagoner, No. 11, 15 1/2 miles; T. B. Staples, No. 12, 30 miles and J. C. King, No. 13, 24 miles.

## REFUSES TO TELL WHAT HIS SALARY IS

General Manager of Mining Company Opposes Effort of Attorney For Copper Miners.

### A DRAMATIC SCENE IN COURT

(By United Press.)  
Houghton, Mich., Mar. 4.—An effort on the part of O. M. Hilton, chief attorney for the miners, to get a statement of his salary from James McNaughton, general manager of the Calumet and Hecla Mining company before the congressional investigating committee today met with strong opposition from McNaughton.

After some argument, McNaughton raised to his feet and shouted at Hillis:

"My salary is not \$100,000 and furthermore my salary is none of your business and I refuse to tell you."

And he did not.

### TAKES IT TO HIGHER COURT

Man Convicted of Singular Cruelty Resists Jury's Verdict.

Lafayette, Ind., March 4.—Unless the Indiana supreme court intervenes, Wilbur G. Moore, a well-known electrical contractor of this city, will have to serve thirty days in the county jail for cruelty to two horses, which he kept confined in a barn eighteen years because they ran away and caused the death of his father. The widow and son of the man made a vow that nobody should ever drive the horses again. They locked up the animals, and as year after year went by the horses grew thinner and, from lack of exercise, their condition grew deplorable. The humane society appealed to Moore to release the horses. He refused. The humane society caused the sheriff to arrest Moore on a charge of cruelty. He was found guilty, fined \$500 and sentenced to thirty days in jail. He moved for a new trial and then for arrest of judgment. He has given bond for \$1,000, pending an appeal to the supreme court.

Los Angeles, March 4.—C. W. Post of Battle Creek, Mich., one of the nation's biggest advertisers, passed through here last evening on a special no-stop train, enroute from his winter home at Santa Barbara to Rochester, Minn., where he will be operated on Saturday for chronic appendicitis by the Mayo brothers.

### Body Blown to Fragments.

Bucyrus, O., March 4.—Frank E. Hennecke, aged fifty-three, a prominent electrician, left his store in the business section of this city to deliver some high explosive concealed beneath his coat. When about 100 feet away from his place of business he slipped and fell. The explosion that followed blew him into fragments.

## WOULD INFLAME LATIN AMERICA

General Carranza Says in Interview Today Intervention in Mexico Would Endanger.

### POLITICAL FUTURE OF U. S.

Rebel Leader Declares Intervention by This Government Would Provoke War.

(By United Press.)  
New York, Mar. 4.—Intervention in Mexico by the United States would inflame all Latin Americans and endanger the entire political future of the United States, in the opinion of General Carranza, chief of the Mexican Rebels.

This belief is expressed in an interview with him published in the World here today.

"I can say positively that intervention would provoke a war that would deepen the profound hatred between the two countries," he said.

Carranza declared he did not believe intervention probable. The killing of W. S. Benton, British subject, was said to be due to a malicious attack on Villa by an enemy of the Rebels. England, he said, could not deal with the case without the recognition of the Rebels, though she had attempted "to use the United States as a cat's paw."

"Villa and I are in perfect accord. He obeys my orders," Carranza said.

## SAYS CONDITIONS ARE INTOLERABLE

Mexicans Appear Before the Senate Committee on Foreign Relations This Afternoon.

### SPANISH REGISTER A KICK

(By United Press.)  
Washington, Mar. 4.—Several Mexicans considered familiar with conditions on the other side of the border today told the Senate committee on foreign relations that conditions there were "intolerable" and that something must be done to protect the property and lives of people in Northern Mexico. They said if their names were known, their lives would not be safe.

Their was also a persistent rumor that Spaniards appeared before the committee today to protest against the protection afforded Spanish citizens in Mexico.

## HAVEN'T FACTS ON MEXICAN OUTRAGES

This is Assertion of Sir Lionel Carden, British Minister, Made Before he Sailed Today.

### HE HAS FAITH IN GEN. HUERTA

(By United Press.)  
New York, Mar. 4.—"Intervention in Mexico would be a dreadfully serious move," said Sir Lionel Carden, British ambassador to Mexico who sailed today for London. "It would mean the loss of thousands of lives. I hope it will not be necessary."

He arrived today from Washington just in time to catch the ship. He is returning to make a personal report on the Mexican situation. Carden denied ever having felt or expressed hostility to the United States or the American policy in Mexico but intimated broadly that he believed Huerta the only man in the country to bring peace there.

"Your people are not getting the real facts of the outrages there," he said. "Conditions are terrible."

## DIDN'T MENTION EXECUTION

Carranza Cabinet Says it Has no Representation From U. S.

(By United Press.)  
Nogales, Arizona, Mar. 4.—Members of the cabinet of General Carranza, the Rebel leader, today insisted that the United States government made no representation to Carranza regarding the execution of W. S. Benton, an Englishman. George C. Caroghres, special agent of the American state department, partially confirmed this when he said his mission did not relate to the death of Benton.

## HIS LIFE IS THREATENED

Nelson O'Shaughnessy, American Charge Protected by Body Guard.

(By United Press.)  
Mexico City, Mar. 4.—Nelson O'Shaughnessy, American Charge, went about protected by a Mexican body guard today. His life has been threatened by friends of General Carranza because of his alleged friendship with Huerta. He has received more than a score of threatening letters warning him that he will be assassinated and the American embassy blown up because of his intimate relations with Huerta.

## DOESN'T HINGE ON MEXICO

John Bassett Moore Resigns From State Department Today.

(By United Press.)  
Washington, Mar. 4.—The resignation of John Bassett Moore, counselor of the state department, was formally presented today. It was declared he was leaving to take working with the Carnegie Sage foundation. Denial was made that development in the Mexican situation had caused his retirement. He was appointed last summer and promised to serve not more than a year.

## POLICE FOUND STOLEN GOODS

**Gang Robbery Implicated in Robbery  
of James Voiles Store in Second  
Street Last Night.**

**LOCATED UNDER CLARK'S MILL**

**Former Policeman Wm. Pea Played  
Big Part in Helping Solve Mys-  
tery—Big Four Entered.**

With the finding of a part of the goods stolen last night from the grocery store of James Voiles, corner of Pearl and Second streets, this afternoon under Clark's mill, in West Third street the police believe they have succeeded in rounding up the gang of boys that have been implicated in a number of robberies in the west part of the city in the past few weeks.

The goods were found and the arrests are expected as a result of William Pea, former city policeman. Pea was deputized on the case by Chief Rosencrance. He suspected three boys and when he let them know that he was "wise" they came through and told him the whole story. One of the boys wanted is Clell Turner, 17 years old, step-son of George Baker.

The Turner boy was out all night and Baker asked Policeman Hardin to bring the boy to the bus barn as he wanted to talk to him. Hardin found the boy but at that time did not know that the boy was wanted for the robbery. After he left the boy at the bus barn, Hardin learned that Turner was one of the gang. On returning to the barn Hardin found that the boy had made his get-away. Late this afternoon the officers were searching for the boy and hoped to land the other two members of the gang.

The names of the other two are withheld until the officers make the arrests. William Pea got the story from the boys and was given permission to work up the case. On going to the mill with Policeman Hunt, Pea found most of the tobacco and other goods taken from the store.

The night before the meat market of L. C. Sharp was robbed and only a few weeks ago the store of William Richter was entered and robbed. It is the opinion of the police that all the robberies were committed by the same person or persons.

At the Voiles store last night ten dollars in money was taken along with a large amount of tobacco, candy and canned goods. Entrance was gained through a rear window. The upper sash of the window was removed.

Mr. Voiles did not discover the robbery until this morning when he opened the store for the day. He went to light the fire and found that even the box of matches had been stolen. Ten dollars had been left in the money drawer for change.

Entrance to the Big Four depot was gained by breaking a window in the ticket office. The office showed that it had been searched and in the freight department several cartons of soap had been opened but none taken. The goods in the freight office were scattered all over the floor and it is the belief of the agent and the police that the robbers were hunting for tobacco.

This morning it was impossible to open the safe in the ticket office and it is believed that the robbers tampered with the combination trying to get it open. E. C. McMahan, Big Four agent, is not positive of this, however, as he may have done something to the safe in locking it last night. It was impossible to open it

## MANY VISITORS PRESENT

**Large Crowd Attended County Meeting of Red Men.**

The county meeting of Red Men held here last night was attended by a crowd of two hundred. Visitors were present from the lodges of Homer, Milroy, Arlington and Mays. Each of these lodges furnished some candidates for the work. The degree team from the Homer lodge exemplified the adoption degrees and the team of the Rushville lodge put on the other two degrees. The county rally was strictly for Red Men. A smoker followed the work.

**Program For 1914 Session of Southern Indiana Association is  
Announced Here.**

**LAST MEET STOPPED BY FLOOD**

The 1913 session of the Southern Indiana Teachers' association was not held on account of the disastrous effects of the floods last March. Practically the same program will be given in 1914, planned for last year. This session will be held at Indianapolis, March 26, 27 and 28.

The following speakers will appear before the association: Dr. E. H. Lindley; Dr. Albert Shaw, editor of the Review of Reviews; Dr. Edwin Mead, international peace advocate; Herbert Bigelow, maker of constitutions; J. A. Burns, the "Lincoln" of the mountains, of Kentucky; Dr. E. J. Ward, the apostle of the social center; Dr. U. G. Weatherly; Dr. E. E. Emerson; Dr. Henry Churchill King and Dr. W. L. Bryan.

It is likely that many teachers in Rushville and Rush county will attend the session.

## ORDER OF BOARD IS STILL IN FORCE

**Dogs Must be Muzzled Until End of  
Thirty Days Which Will be  
March 12.**

**GIRLS ARE DOING NICELY**

The order of the city board of health requiring all dogs running at large without muzzles is still in force and will continue so until the expiration of thirty days. The order was issued February 12 and will not expire until March 12. The order when first issued was to be in force indefinitely but Dr. E. I. Wooden, secretary of the board decided today that thirty days would be long enough. He believes there will be no danger from rabies in this length of time.

Florence Martin, daughter of Mr. and Mrs. Eli Martin and Mamie Brock, daughter of Mr. and Mrs. Rube Brock, who are in Indianapolis taking the pasteur treatment are getting along nicely. They were bitten by a dog here and as a result the order of the health board was issued. The treatment requires twenty-eight days.

About four hundred arrests for counterfeiting are made in the United States.

## DIRECTORS ARE TO MEET TONIGHT

**President Will M. Sparks Today  
Calls Initial Session of Cham-

**CALL MEETING.**  
The board of directors of the Chamber of Commerce of Rush county is called to meet in the court house assembly room to-night at seven-thirty o'clock.  
\*\*\*\*\*  
**WILL M. SPARKS, President.**  
\*\*\*\*\*

In order that the organization may be completed and that the Chamber of Commerce of Rush county may be set in motion, President Will M. Sparks today called the initial meeting of the board of directors since its organization to consider important questions.

The meeting will be held promptly at seven-thirty o'clock in the court house assembly room. It is urged that as many directors as possible be present tonight as business of great importance to the Chamber will be discussed. It is requested that the directors be there on time so that the business may be transacted with dispatch.

It is stated that the desire of the directors now is to arrange for a temporary secretary so that the first month's dues may be collected and the organization started. The necessity of opening a set of books and establishing temporary headquarters is imperative, it is pointed out.

The appointment of the standing committees to carry out the suggestions for the various departments is yet to be done as soon as the organization work is completed by the directors. The matter of incorporation is yet to be attended to, also, if it is the wish of the directors that the Chamber be incorporated.

The vigorous campaign for more members is to be waged just as soon as the directors arrange for a temporary secretary, establish headquarters and have the Chamber in running order.

Although the organization calls for a standing committee on membership, it has been suggested that a committee of a given number of men be assigned to each day in the week and the consent of the men on each committee be obtained to work at least an hour on the day to which they are assigned.

It is believed that in this way a careful and comprehensive canvass of the city can be made. A list of prospective members who have never yet been affiliated with the Chamber has already been made out and a more careful consideration, it is thought, would result in a great many more names being added.

Every one interested in the organization is highly elated with the progress made so far and see nothing but a cheery future for it.

## FIGHT FOR GIRLS BROUGHT TO END

**Suit of August Ebbing Against Wal-  
ter H. Kuhn, Guardian of His  
Children, Compromised.**

**MICHAEL KNEY APPOINTED**

**Circuit Court is Quiet Except For  
Report Grand Jury is Invest-  
igating A. P. Walker Case.**

The case of August Ebbing against Walter H. Kuhn, guardian of Lizzie and Mary Ebbing, asking that Kuhn be removed as guardian, which was to have been heard today by Judge Megee, was compromised before the case was called for trial. By the terms of the agreement Kuhn resigns as guardian and Michael Kney takes his place.

The suit to remove the guardian came after a bitter fight for possession of the children waged by their father, August Ebbing. It will be remembered that Ebbing took one of the children to his home while she was on her way from school to the Kuhn home. Several suits were filed and one against Ebbing for surety of peace is now pending on the criminal record. Kuhn alleged that Ebbing threatened his life when he attempted to recover possession of the child.

All the parties are well known residents of near Blue Ridge. When the father took possession of the child, a suit was filed asking that he be compelled to give her back to the guardian. In this suit the court held that Ebbing was a fit person to have the care of the child and he was given permission to retain her. Michael Kney, the new guardian, was agreed upon by all the parties. He is a well known farmer, living in the western part of this county.

There was very little doing in the circuit court outside of the Ebbing-Kuhn matter. The grand jury was in session again today. This morning it was understood, the grand jury investigated the shooting of Ray Lakin by former chief of police, T. E. McAllister. An affidavit against McAllister, charging assault and battery with intent to kill, still hangs fire before Squire Krutzer. The shooting occurred in the McCormick restaurant the day that McAllister took off his police badge.

The grand jury, it is said, investigated some of the dealings of A. P. Walker this afternoon. It is known that several local bankers were called before the grand jury and as it was intimated before the grand jury went into session that some of the charges would be investigated, it is naturally supposed that the presence of the bankers had to do with the Walker case.

(By United Press.)

Chicago, Mar. 4.—In a bitter denunciation of William Ellis, as a man who "besmirched" his own fireside and admitted that he was "damaged goods," the state today demanded the life, through its attorney, of the wealthy Cincinnati harness manufacturer.

"Shame on him for blackening his wife's name to save his own miserable neck and for telling that his blood was contaminated, disgracing his children," said Attorney Malato.

(Special to the Daily Republican)

Bloomington, Ind., Mar. 4.—Little hope was held out today for the recovery of Mrs. Joseph Richardson, who late yesterday afternoon was shot down here by her son-in-law, Thomas Hardin, who, before he turned the gun on her, killed his wife, from whom he had separated, instantly by firing a bullet through her heart. Hardin was caught shortly after the shooting. Mrs. Richardson is in the hospital where an operation was undergone but with little success.

**STATION MASTER TESTIFIES**

(By United Press.)

Anderson, Ind., Mar. 4.—In a statement to the jury in the George W. Brown murder trial today, an attorney for the defense said that George had killed Constable Albert Hawkins in self defense and that the defendant was sub-normal both in intellect and hearing.

Hawkins' blood-stained clothing was shown to the jury today.

The station master at Ingalls, where the murder occurred, said on the stand he heard William Brown dare Hawkins the night of the murder to take him to Anderson. William is the father of George and was also indicted for the murder.

## CASE GOES TO JURY THIS AFTERNOON

**Judge's Instructions in Terre Haute  
Election Fraud Says Marking  
of Ballots.**

**ENOUGH FOR CONVICTION**

(By United Press.)

Terre Haute, Ind., Mar. 4.—After argument by attorneys in the trial of William Huffman, charged with stuffing the ballot box, the case went to the jury this afternoon. The special judge's instructions made the statement that the marking of ballots was sufficient offense to cause conviction even though they were not passed.

Special Prosecutor Roach declared "the men who carried away the ballots are political brigands" and that when the ballots were taken from Hellick's saloon, it resembled a cake walk.

Mayor Roberts and others are awaiting trial on similar indictments.

**OFF FOR WASHINGTON.**

San Francisco, Cal., March 3.—An "army of the unemployed," broke camp here today and started its march to Washington, D. C. There are twenty-four companies of ninety men each. The organization has all of the officers of a military regiment, except a paymaster. It was led by buglers and drummers. "Gen." C. T. Kelly is in command.

## MAY BE AFFECTED BY COAL STRIKE

**City Council Decides to Buy Bigger

**REPORTS ARE SUBMITTED**

**Learned That Fuse Plugs Placed at  
Plant by Former Superintendent  
Are Wrong Kind.**

The city council met last night in regular session with all members present, with the exception of McGinnis. The question of coal for the water and light plant in case of a strike in April was probably the most important thing discussed. Superintendent Mahin reported to the council that the outlook for coal was not very bright and said he did not believe the city could get along on its present contract. He advised that a supply be purchased.

The city has a contract with a coal company near Cincinnati to furnish two cars of coal each week. It is planned to purchase eight or ten car loads in advance of the contract and in case the strike is called the city will have the coal and can cut the contract until the supply is again in shape to renew it. Councilman Brann was in favor of erecting an additional coal bin at the water and light plant.

The question of a team of horses for the fire department again arose. Councilman Wagoner of the fire committee reported that he had a friend at work in the northern part of the county looking for a team and believed he would locate a good one soon.

The finance committee reported that the city treasurer's report for the month of January had been found correct.

The old problem of stands and wagons being allowed to do business on the streets of the city was again brought before the council. Mayor Rebout stated that one of the wagons selling a bunch of remedies wanted to move from the south side of the court house square to the west side. The owner of the wagon stated that he was placed on the south side by the former chief of

## Sowing The Dollar Crop

National advertisers are going in for newspaper advertising this year on a greater scale than ever before.

They are going to create immediate consumer demand in the localities which sell their goods.

They have found it is the easiest way and the least expensive way.

It increases sales and lessens costs.

Certain local dealers are going to profit greatly by this market-making work of the manufacturers.

They are the ones who will be alert to their opportunities and who will have the goods ready when the public begins manifesting an interest in them.

They are going to reap their share of the dollar crop which the manufacturers are sowing through newspaper advertising.

## EGG IMPORTS REACH NEW MARK

More Brought into United States in One Month Than During Whole Fiscal Year Previously

SOME ARE SUBJECT TO DUTY

Imported "Hen Fruit" is Chiefly From China, Russia, Siberia and Southern Europe.

(Special to the Daily Republican.)  
Washington, Mar. 4.—The growing dependence of the United States upon foreign countries for a part of its food supply lends interest to a special statement regarding imports and exports of eggs, prepared by the Bureau of Foreign and Domestic Commerce, Department of Commerce. Imports of eggs in the month of December last amounted to 1,514,293 dozens, or more than in the entire fiscal year which ended with June, 1913.

In the fiscal year 1903 the imports amounted to 368,900 dozens; in 1910, \$18,900; in 1913, 1,367,000 dozens; and in the first three months under the new tariff law—October, November and December last—during which period eggs were admitted free of duty, the imports aggregated 1,701,153 dozens, most of them arriving in the month of December. Recent consular advices from China and European ports indicate continued large increases in the shipment of eggs to this country.

Eggs other than those in the natural condition are still subject to duty, though at reduced rates, and these show increasing imports in the brief period for which the monthly figures are at hand. Frozen or preserved eggs, the duty on which is now 2 cents per pound, compared with 5 cents a dozen under the former tariff, show for the last three months of 1913 a total importation of about 1 million pounds, valued at approximately \$115,000.

Egg yolks, now dutiable at 10 per cent, ad valorem instead of 25 per cent, as under the old law, aggregated about 200,000 pounds, and dried eggs, 8,534 pounds for the three months ended with December. In each case the imports were considerably larger than those for the corresponding period of 1912.

The countries contributing the eggs imported into the United States are few in number. Our imported eggs are chiefly the product of China, Siberia, Russia, and Southern Europe, those arriving from England and Germany having been for the most part shipped into those countries for resale to foreign markets. Of eggs imported in the natural state, England is the chief nominal source, next in order being China (including Hongkong) and Canada. Frozen eggs are chiefly from England, with smaller quantities from Hongkong. Egg yolks come almost exclusively from Germany, which imports large quantities of eggs from the producing centers of Europe and Asia and re-exports them in this form to the United States and other parts of the world.

Most of the imported eggs enter through the ports of New York, Philadelphia, Boston, San Francisco, Baltimore, Milwaukee, Seattle, Tacoma, and Portland, Ore. Hawaii also receives considerable quantities of frozen or preserved eggs from Hongkong, an important distributing point for Chinese products.

Exports of eggs during the year ended with December, 1913 amounted to 17 2/3 million dozens, compared with practically 19 million in 1912, 5 2/3 million in 1910, and 1 1/2 million in 1903, a decade ago. While exports of eggs are still much greater than imports, the closing months of the year showed a distinctly downward tendency in exports and an upward trend in imports of that commodity.

## COUNTY FAIRS TO GET ATTENTION

Department of Agriculture Believes They are Most Direct Route of Reaching the Farmer.

TO SEND DEMONSTRATORS

Transportation and Cooperation are Held to be Two Keys to Rural Situation.

(By United Press.)  
Washington, D. C. March 4.—The county fair, where the red Hereford bull flaunts a blue ribbon and the prize pumpkin and the trotting race are rivals for attention, has been seized upon by the Department of Agriculture as one of the most direct methods of reaching the farmer. Dr. W. J. Spillman, in charge of the office on farm management is organizing a large force of "demonstrators" to attend the fairs next fall and give free demonstrations in everything from making a glass of crab apple jelly to building a barn.

County agents now in the field have done much to aid thousands of farmers in the way of organization and individual effort, but their chief difficulty so far has been to convince the soil tillers that the government "meddling," and that scientists can do every day things better because they get at it scientifically.

This difficulty has largely been overcome by tactfulness, such as that exercised by a Texas agent a few days ago when he called on a farmer who said he was too busy to waste time with a "book farmer" as he had to go to town to get a man to fix a gasoline engine that refused to run.

The agent at once dropped the matter of farm management and made a diagnosis. He cleaned the spark plug, adjusted the carburetor, ground the valves a little and soon had the engine running like new. The delighted farmer thereupon not only found time to talk but to introduce the agent to a dozen of his neighbors. The woman on the farm is also receiving a large share of the attention of the farm management office and number of woman agents are giving their time to this work.

Transportation and cooperation are held by Dr. Spillman to be the two keys to the rural situation today and with this in view he never misses an opportunity to urge the use of the Parcel Post and organization of producers' and consumers' leagues. Furthermore he believes that great evil comes from overplanting one year and underplanting the next, and that a better understanding with the consumer will remedy this.

"In the year 1901 the potato crop was very small and the price was correspondingly high," he said illustrating this point. "This led to overplanting the next year and the crop was so large that the price was lowest in 14 years. This caused underplanting in 1903 which again brought on an abnormally large crop the year following, and so it still goes on. The farmer is confronted with the difficulty that he does not know who wants his produce. If he sends it to the city customer he is afraid he will not get his pay for it. On the other hand the consumer in the city is afraid to order directly from the farmer for fear he will not get what he orders."

"The remedy for this is the organization of a producers' and consumers' league. Farmers who join such a league should be made to give a small bond that what they supply shall be as represented and the city consumer must give similar assurance that he will pay for what he gets. If 100 or more families bought the principal portion of their supplies in this manner the expense of maintaining a central office would be reasonable and the advantages would be manifold."

With 190,000 square miles cleared of the "Texas fever tick," so fatal to cattle not immunized, Dr. A. D. Melvin, chief of the bureau of animal industry, believes that the fight can

be continued until every disease carrying tick of this species in the United States succumbs. To this end he expects congress to appropriate \$350,000 in addition to \$50,000 for the purpose of encouraging the raising of blooded cattle in the cleaned-up area. It is also the aim of the Department of Agriculture to have the present laws amended so that it will be necessary to clear the cattle of ticks by dipping them in an arsonical preparation before shipping them to the northern markets. Originally the tick was found in ten of the largest states below the heavy frost line but it is gradually losing ground before the advance of science.

"As we eliminate a territory of ticks we have to be doubly careful to guard that territory," said Dr. Melvin in support of his plan for killing the ticks before shipping cattle. "In case of accidents to cattle en route, by the breaking down of trains or something of that sort the ticks might get out and re-invest a cleared area. Then there is always the danger of ticks being blown out of the cars, etc."

The \$50,000 sought by Dr. Melvin is to be used in increasing the amount of live stock and improving its breed in areas where animal husbandry and dairying have not been extensively carried on because of the presence of ticks. Special attention will be given those districts in Mississippi and Louisiana and similar sections where the presence of the bull weevil has made cotton raising a precarious industry.

**A Case of Politics.**

Not being professedly learned in the law, we are not prepared to discuss the legal phases of the recent compromise in the liquor law violation cases in the mayor's court, but we are certain that all sides were agreed that the end arrived at was the proper settlement. There was no objection to the compromise from either side.

The Jacksonian has been devoting columns to the discussion each evening, and by this time, we presume, has told, and without repeating, too, about all the law it lays claim to knowing, but that's neither here nor there, because it remains for the courts to settle those questions.

"If the present administration carries out its promises," says the Jacksonian modestly, "it will certainly get due credit in the columns of the Jacksonian."

The mock stuff, the lameney the Jacksonian professes to have with the opposition party, stands in good stead at this present "crisis," but we have yet to see a word of praise of any Republican office holder in the columns of the Jacksonian. The record of the Jacksonian does not warrant this.

When all of these facts are duly considered in their relative order, one would not be far amiss to venture the assertion that the Jacksonian is playing politics pure and simple, or else the editor is after that barrel of whiskey. One or the other seems to fit, and we would not be so brazen as to make the latter accusation.

But since the Jacksonian has descended to make this a purely political matter to get the party in power "in bad," we may as well attempt to give the other side of the case.

Has the Jacksonian ever considered that Donald Smith, prosecuting attorney and Democratic office holder, was a party to the compromise and was really the peacemaker?

Has the Jacksonian ever announced in its columns that Donald Smith was not only the accredited head of the state in the prosecution of the case, but that he, the day of the trial, was the person who went from one side to the other to reach a compromise?

Has the Jacksonian ever stated that the attorneys for the state and the defendants went into another room the day of the trial and discussed a compromise, without the presence of Mayor Behout, who the Jacksonian is holding up to ridicule in the present instance, and that the prosecutor later laid the terms before the mayor?

Has the Jacksonian ever told that

it was the prosecuting attorney who announced the terms of the compromise?

Has the Jacksonian ever made it plain that the attorney employed by the Men's Bible classes of the city, the attorney of the Indiana Anti-Saloon League, the prosecuting attorney, the attorney representing one of the defendants—the other had no attorney—and the mayor were all parties to the compromise?

The Jacksonian has done none of this. The Jacksonian seems to be the only person who is complaining about the decision. There seems to be no public uprising, no marvelous wave of opposing sentiment. The Jacksonian merely believes it has an opportunity to place the present administration in a false light, and its effusions are probably considered with that fact in view by most people.

The Jacksonian avows that the present administration will get due credit at its hands and that the Jacksonian might as well prepare to hash up some "credit" right now, because the administration, regardless of hindering influences, which ought to be helpful influences, has, before it is in power two months, obtained two convictions for liquor law violation. That is more than was accomplished during the whole four years of the last Democratic administration when the city was credited with being a "wide open" town and the opportunities for convictions good.

Now that all of the law on this question has been thoroughly presented by the Jacksonian, it is useless to enter into it further, except that to say, if the letter of the law was broken, it was not the first time, and it was done at the connivance of the accredited head of the state, who is supposed to prosecute all law violations, and with the consent of all parties to the controversy for the sake of preventing a costly trial.

The Indiana state law, to back up the assertion made that the letter of the law is often violated, says that all weapons taken from men under arrest SHALL be turned over to the sheriff and that he SHALL destroy them, yet while Mayor Behout was sheriff for four years, a weapon of any sort was never placed in his hands, although it is a well-known fact that several were "confiscated."

(By United Press.)  
New York, Mar. 4.—Fighting with pistols, clubs and revolvers, the police today captured desperate burglars in the act of robbing the safe in a bowery jewelry store of \$50,000 in diamonds. The burglars made a fortress of the counters and opened fire. During a lull in the battle the police grappled with the burglars and overpowered them.

police. There are several ordinances covering the wagons doing business on the street by peddlers. It is a difficult matter to find all the ordinances and it is proposed to have them all printed, and then if necessary, pass a new ordinance covering this question. The council did not seem inclined to allow the wagons in Main street.

Superintendent Mahin submitted his monthly report to the council and it was ordered placed on file. Mr. Mahin read a letter to the council from the state bureau of boiler inspection stating that the boiler at the plant here had been examined recently and found that the fuse plugs installed under former superintendent Frank Brown were placed wrong and were not the right kind of plugs. The plugs were put in, it will be remembered, when the plant was shut down night after night for almost a month. It will be necessary to do the work over but Mr. Mahin believes he can do it without closing down the plant. The boilers were inspected only last week. The superintendent was ordered by the inspector to do the work at once.

The superintendent of the water and light plant stated to the council that some people insisted on installing 5-8 inch water meters instead of 3-4 inch meters. The 5-8 inch meter is cheaper and does not give the satisfaction that other meters do. The former council specified that the people install 3-4 or 1-2 inch meters. It was suggested that the people be warned against installing 5-8 inch meter as the city water will not be turned on in case a meter of this size is used.

The Indianapolis and Cincinnati Traction company registered a kick on the amount of their water bill at the station here. They believed that the meter was wrong and registered too much water. Henry Gregg, according to the report made to the council, was sent to the traction station by Superintendent Mahin to make an investigation. In his report Mr. Gregg stated that he found the meter working perfectly and thought the only trouble was with the I. & C. which seemed to forget that the place was public and the water was often wasted by thoughtless people.

Several other people had kicked on their water bills. One of these was from the Greeks. The Greeks have the only meter in the building and collect from the other occupants at a flat rate. They claim their share is too large in proportion to what they receive. A change is proposed and separate meters may be installed in all the rooms of the building. Where the amount is thought to be correct, the city treasurer was instructed to go ahead and collect and show no favorites. He will collect the bills as turned in by the superintendent.

A bond ordinance amounting to \$120.45 covering the improvement of Jackson street from Third street to First street was passed under suspension of rules.

The city has a well on the land of James Keating and he claims to have a contract calling for \$12 a year and free water. The city has never used the well, and as it is not Keating's fault, he is demanding his money. The contract was made with the former council and called for the use of the land at the rate of twelve dollars a year. A search of the records last night failed to reveal the contract with Keating. He wants the well for his own use if the city is not going to use it. The well gives fifty-five gallons a minute and is considered a good one. The only drawback is the location. It would cost a considerable sum to tap it to the city mains. The contract with Mr. Keating will have to be found first before the council takes any action.

Sworn Statement Must be Filed in County Auditor's Office Between March 1 and May 1.

**FINE FOR FALSE STATEMENT.**

Penalty of from \$50 to \$500 to Which May be Added Jail Sentence is Provided for.

Many persons have made inquiry regarding the mortgage exemption law, which provides that persons desiring to avail themselves of the act shall file a sworn statement with the county auditor between March 1 and May 1.

The act reads as follows:  
"That any person being the owner of real estate liable for taxation within the State of Indiana, and being indebted in any sum, secured by mortgage upon real estate, may have the amount of such mortgage indebtedness, not exceeding seven hundred dollars, existing and unpaid upon the first day of March of any year, deducted from the assessed valuation of mortgage premises for that year, and the amount of such valuation remaining after such deduction shall have been made shall form the basis for assessment and taxation for said real estate for said year: Provided, That no deduction shall be allowed greater than one-half of such assessed valuation of said real estate."

"Any person desiring to avail himself or herself, of the provisions of this act shall, between the first day of March and the first day of May of each year, file with the auditor of the county wherein said real estate is situated a sworn statement of the amount of such mortgage indebtedness existing and unpaid on the first day of March of that year, giving the name and residence of the mortgagee, and shall also give the name and residence of the assignee or bona fide owner or holder of said mortgage, if known, and if not known, said person shall state that fact and shall also state the record and page where said mortgage is recorded, and a brief description of the estate upon which such incumbrance exists."

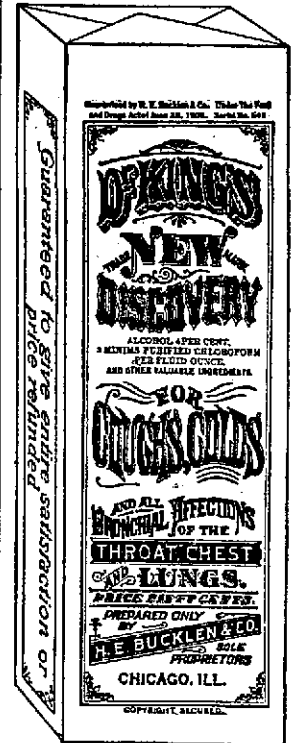

"The County Auditor with whom such statement is filed, in case the money, notes or credits evidenced by such mortgage indebtedness be liable for taxation in any county in the State of Indiana other than the one wherein such real estate is situated, shall immediately certify and transmit a copy of such sworn statement to the auditor of the county wherein the mortgagee, assignee or bona fide holder or owner of said mortgage resides, or wherein the money, notes or credits evidenced by mortgage is otherwise taxable."

The act also provides a penalty of from \$50 to \$500 to which may be added a jail sentence not exceeding six months for any person who shall willfully make a false statement regarding such property.

## INSURANCE MEN AT SOUTH BEND

Indiana State Fire Prevention Association Stops There While on Tour of Inspection

ALL BUILDINGS ARE VISITED

Purpose is Not to Raise Rates but to Prevent Loss to Companies by Fire.

(By United Press.)

South Bend, Ind., Mar. 4.—When forty or more insurance men stopped off here today for a two-day visit of inspection, the local merchants at first thought it meant a combination against them for the purpose of raising rates. It was then explained that the reverse was the idea. This was the first day of an inspection by the Indiana State Fire Prevention Association, composed of men in the fire insurance business.

This city has been mapped out by Gus M. Wise of Indianapolis, secretary of the association. The men have been divided into two-man teams and they will inspect every merchantile building in South Bend these two days. They will ferret out such nuisances as dirty basements, bad wiring, faulty heating apparatus, faulty flues and rubber hose connections for gas apparatus. These will be called to the attention of the proprietor with the suggestion that it is to his best interest to remedy them.

Each night a report will be made to Wise, who will tabulate it. He will then send notices to the merchants, following them up later with other notices. If after two notices have been sent the nuisance is not removed, the fire marshall will be notified, and he will force the improvement.

The association is interested in fire prevention for the reason that fires cost insurance companies real money. It has visited Terre Haute, Bloomington and Logansport recently. At Terre Haute and Bloomington there have been some rate reductions as a result and some are expected at Logansport.

No combination of companies on rates is allowed, due to a restraining order to that effect issued in the Marion county courts.

At the invitation of commercial organizations, this association expect to visit all the large cities in the state, giving each a thorough inspection and a good clean-up.

## "The Greatest Kidney Remedy on Earth," Says A Grateful Woman.

I want to tell you how much good your Swamp-Root did me. About four years ago, I suffered from what the doctors called influenza and for two years of that time, I endured what no tongue can tell. I also had inflammation of the bladder and I tried doctors' medicines without receiving any help. Someone told me about Dr. Kilmer's Swamp-Root.

After giving it a thorough trial, I received relief, so kept on using it and today I am a strong and well woman. If I ever feel badly or out of sorts, I take Swamp-Root and it always straightens me out. I honestly believe that this medicine would cure all troubles you recommend it for and it is a pleasure for me to send my testimony and photograph to you. I think Dr. Kilmer's Swamp-Root is one of the greatest medicines on earth.

Respectfully yours,

# ANAEMIC SINCE CHILDHOOD

How Miss Holmes Regained Her Health.

If you are anaemic, you need more iron in your blood, and the tell-tale symptoms are a pale face—colorless lips, ashen finger nails, poor circulation, and short breath, and more serious diseases are easily contracted when in this condition.

What Vinol did for Miss Yvonne Holmes of Fall River, Mass., it will do for every anaemic run-down person. She says: "I have been weak and anaemic since childhood, always had that tired feeling! Tonic after tonic was tried with little or no result until Vinol was recommended, and after taking three bottles, my appetite and digestion have been improved. I do not suffer any more from insomnia, nor do I have distressing headaches as formerly, and I am stronger than I have been for years."

We ask every anaemic or run-down, weak person in this vicinity to try a bottle of Vinol with the understanding that their money will be returned if it does not do all we claim. F. B. Johnson & Co. Druggists, Rushville, Ind.

# Falling Hair and Itching Scalp

Needless—Use Parisian Sage.

Now that Parisian Sage can be had at any drug counter it is certainly needless to have thin, brittle, matted, stringy or faded hair. No matter how unsightly the hair, how badly it is falling, or how much dandruff, Parisian Sage is all that is needed. Frequent applications and well rubbed into the scalp will do wonders—it acts like magic. The hair roots are nourished and stimulated to grow new hair, itching scalp, dandruff and falling hair cease—your head feels fine. Best of all, the hair becomes soft, fluffy, abundant and radiant with life and beauty.

You will be surprised and delighted with Parisian Sage. Try at least one fifty cent bottle from F. B. Johnson and Company, they will refund the purchase price if you are not satisfied.

## CHANGE FOR THE NEW ASSISTANTS

Good Road Advocates Declare They May Exert Police Powers and Prevent Heavy Hauling.

WHILE HIGHWAYS ARE SOFT

New Assistants Take Office After Their Bonds Are Approved by Board of Commissioners.

Advocates of good roads in Rush county are pointing out that there is opportunity now for the county highway superintendent, J. C. King, to show the value of the new law and the worth of his office and those of his assistants by ordering them to use their police powers, which an old statute gives them, to prevent heavy hauling at this season of the year on turnpikes, macadam and free gravel roads.

The ground is already thawing and roads are soft and unfit for travel but they still may be used without great damage being done. Because of the very severe freezes during the winter the thaws will make the roads in much worse condition than usual.

The assistant superintendents have police power to arrest under an act of 1907, any driver of a wagon weighing more than 2,500 pounds with load and driver. The penalty for violation of the act is a fine of not less than \$5 nor more than \$50. For each arrest made from which a prosecution results, the person making the arrest secures \$2.

The county commissioners have approved the bonds of the assistant highway superintendents who will co-operate with the county highway superintendent. They adjourned yesterday without doing much business. They took dinner at the county poor asylum.

The assistant superintendents, who take office whenever their bonds are approved, and their district, are as follows: Rolla Zorne, No. 1, 12 1/2 miles; Benjamin Black, No. 2, 18 1/2 miles; Charles McBride, No. 3, 22 1/2 miles; Riley Ruby, No. 4, 22 miles; Frank Graff, No. 5, 25 1/2 miles; Frank Sample, No. 6, 19 1/2 miles; Bert Leisure, No. 7, 21 miles; John Heeb, No. 8, 25 1/2 miles; J. Frank Wilson, No. 9, 19 1/2 miles; Alva Hungerford, No. 10, 24 1/2 miles; John Wagoner, No. 11, 15 1/2 miles; T. E. Staples, No. 12, 30 miles and J. C. King, No. 13, 24 miles.

## REFUSES TO TELL WHAT HIS SALARY IS

General Manager of Mining Company Opposes Effort of Attorney For Copper Miners.

A DRAMATIC SCENE IN COURT

(By United Press.)

Houghton, Mich., Mar. 4.—An effort on the part of O. M. Hilton, chief attorney for the miners, to get a statement of his salary from James McNaughton, general manager of the Calumet and Hecla Mining company before the congressional investigating committee today met with strong opposition from McNaughton.

After some argument, McNaughton raised to his feet and shouted at Hilton:

"My salary is not \$100,000 and furthermore my salary is none of your business and I refuse to tell you."

And he did not.

TAKES IT TO HIGHER COURT

Man Convicted of Singular Cruelty Resists Jury's Verdict.

Lafayette, Ind., March 4.—Unless the Indiana supreme court intervenes, Wilbur G. Moore, a well-known electrical contractor of this city, will have to serve thirty days in the county jail for cruelty to two horses, which he kept confined in a barn eighteen years because they ran away and caused the death of his father. The widow and son of the man made a vow that nobody should ever drive the horses again. They locked up the animals, and as year after year went by the horses grew thinner and, from lack of exercise, their condition grew deplorable. The Humane society appealed to Moore to release the horses. He refused. The Humane society caused the sheriff to arrest Moore on a charge of cruelty. He was found guilty, fined \$500 and sentenced to thirty days in jail. He moved for a new trial and then for arrest of judgment. He has given bond for \$1,000, pending an appeal to the supreme court.

Post Speeding to Surgeons.

Los Angeles, March 4.—C. W. Post of Battle Creek, Mich., one of the nation's biggest advertisers, passed through here last evening on a special no-stop train, enroute from his winter home at Santa Barbara to Rochester, Minn., where he will be operated on Saturday for chronic appendicitis by the Mayo brothers.

Body Blown to Fragments.

Bucyrus, O., March 4.—Frank E. Hennecke, aged fifty-three, a prominent electrician, left his store in the business section of this city to deliver some high explosive concealed beneath his coat. When about 100 feet away from his place of business he slipped and fell. The explosion that followed blew him into fragments.

## WOULD INFLAME LATIN AMERICA

General Carranza Says in Interview

Today Intervention in Mexico Would Endanger.

POLITICAL FUTURE OF U. S.

Rebel Leader Declares Intervention by This Government Would Provoke War.

(By United Press.)

New York, Mar. 4.—Intervention in Mexico by the United States would inflame all Latin Americans and endanger the entire political future of the United States, in the opinion of General Carranza, chief of the Mexican Rebels.

This belief is expressed in an interview with him published in the World here today.

"I can say positively that intervention would provoke a war that would deepen the profound hatred between the two countries," he said.

Carranza declared he did not believe intervention probable. The killing of W. S. Benton, British subject, was said to be due to a malicious attack on Villa by an enemy of the Rebels. England, he said, could not deal with the case without the recognition of the Rebels, though she had attempted "to use the United States as a cat's paw."

"Villa and I are in perfect accord. He obeys my orders," Carranza said.

## SAYS CONDITIONS ARE INTOLERABLE

Mexicans Appear Before the Senate Committee on Foreign Relations This Afternoon.

SPANISH REGISTER A KICK

(By United Press.)

Washington, Mar. 4.—Several Mexicans considered familiar with conditions on the other side of the border today told the Senate committee on foreign relations that conditions there were "intolerable" and that something must be done to protect the property and lives of people in Northern Mexico. They said if their names were known, their lives would not be safe.

There was also a persistent rumor that Spaniards appeared before the committee today to protest against the protection afforded Spanish citizens in Mexico.

## HAVEN'T FACTS ON MEXICAN OUTRAGES

This is Assertion of Sir Lionel Carden, British Minister, Made Before he Sailed Today.

HE HAS FAITH IN GEN. HUERTA

(By United Press.)

New York, Mar. 4.—"Intervention in Mexico would be a dreadfully serious move," said Sir Lionel Carden, British ambassador to Mexico who sailed today for London. "It would mean the loss of thousands of lives. I hope it will not be necessary."

He arrived today from Washington just in time to catch the ship. He is returning to make a personal report on the Mexican situation. Carden denied ever having felt or expressed hostility to the United States or the American policy in Mexico but intimated broadly that he believed Huerta the only man in the country to bring peace there.

"Your people are not getting the real facts of the outrages there," he said. "Conditions are terrible."

## DIDN'T MENTION EXECUTION

Carranza Cabinet Says it Has no Representation From U. S.

(By United Press.)

Nogales, Arizona, Mar. 4.—Members of the cabinet of General Carranza, the Rebel leader, today insisted that the United States government made no representation to Carranza regarding the execution of W. S. Benton, an Englishman. George C. Caroghres, special agent of the American state department, partially confirmed this when he said his mission did not relate to the death of Benton.

## HIS LIFE IS THREATENED

Nelson O'Shaughnessy, American Charge Protected by Body Guard.

(By United Press.)

Mexico City, Mar. 4.—Nelson O'Shaughnessy, American Charge, went about protected by a Mexican body guard today. His life has been threatened by friends of General Carranza because of his alleged friendship with Huerta. He has received more than a score of threatening letters warning him that he will be assassinated and the American embassy blown up because of his intimate relations with Huerta.

## DOESN'T HINGE ON MEXICO

John Bassett Moore Resigns From State Department Today.

(By United Press.)

Washington, Mar. 4.—The resignation of John Bassett Moore, counselor of the state department, was formally presented today. It was declared he was leaving to take working with the Carnegie Sage foundation. Denial was made that development in the Mexican situation had caused his retirement. He was appointed last summer and promised to serve not more than a year.

Another Postoffice Robbed.

Mulberry, Ind., March 4.—Yeggs dynamited the safe in the local postoffice and made their escape. Postmaster Fickie said the safe contained several hundred dollars.

## March is Here!

Have you thought anything about your Spring and Summer Work Shoes?

"Men's Ease" can not be bought at any store in Rush County but ours. They fit like a Sunday shoe, are just as easy, and wear from 6 months to 1 year in the hardest of work.

Don't Buy Until You See Them.

REPAIRING

## MONUMENTS! MONUMENTS!

Our stock of monuments this season surpasses anything we have heretofore carried, embracing a neat selection from the modestly plain to the elaborately carved from model designs. The products from the numerous quarries in the Barre, Vermont, district vary, not alone in color, but also in quality of stock. Who selects yours? **J. B. SCHRICHTE & Sons**

## CLARK'S PURITY FLOUR

Costs a little more than other flours but is worth the difference. It is made for people who care enough about bread to notice the difference in different kinds of flour.

Made at RUSH COUNTY MILLS.
